DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 8/23/10, with respect to the rejections of Dietz (5,771,844) have been fully considered and are persuasive. The Examiner notes that the amendment to the specification now renders the 35 USC 112 rejection of claims 59-75, moot. The rejection of claims 59-78, 80, 81, 87, 88 and 94 have been withdrawn.

Allowable Subject Matter

Claims 59-78 and 80-95 are allowed.

The following is an examiner's statement of reasons for allowance: **In view of the amendment and arguments submitted 8/23/10 as it pertains to independent claim 59, the prior art reference does not teach a circulating fluidized bed reactor wherein a reaction chamber and a separation chamber have a common wall disposed therebetween including opposing sides wherein at least a portion of the opposing walls define a portion of each chamber respectively. In re claim 76, prior art does not disclose that the wall of the reaction chamber and the wall of the separation chamber of the centrifugal separator are contiguous, Dietz discloses these walls as non-connecting; and in re claim 94, there is a lack of teaching of an acceleration duct extending into the centrifugal separator wherein Dietz discloses an acceleration duct which extends into the reaction chamber.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory A. Wilson whose telephone number is (571)272-4882. The examiner can normally be reached on 7 am - 4:30 pm EST.
